Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The compounded medication I receive
is not available locally, and it has prevented
recurrence of very heavy ceaseless bleeding that
I experienced two years ago. Since beginning this
medication I have progressed through menopause
with no symptoms and with excellent health physically
and emotionally. I consider the medication very
necessary to the maintenance of my post-menopausal
health.
